

Ogilby (John) Cosmographer
Morgan (William) Cosmographer

(6)

Ogilby's and Morgan's Pocket-Book of the Roads,

WITH THEIR
Computed and Measured Distances, and the Di-
stinction of MARKET and POST-TOWNS. Also a Table
for the ready finding any ROAD, CITY, or MARKET-
TOWN, and it's Distance from London: A SHEET-MAP
of England, fitted to bind with the Book: And an
Exact Account of all the FAIRS, both fixed and
movable, in Alphabetical Order, shewing the Days on
which they are held.

By WILLIAM MORGAN,
Cosmographer to their Late Majesties.

The TENTH EDITION, Corrected.

To which is added,
A List of the Principal Trading Towns to which Letters
are sent every Night from the Post-Office in London. Also the Ex-
pence of sending a Letter or Packet by Express to the most noted
Towns of England.

LONDON: Printed for J. BROTHERTON, W. MEAD-
DOWS, R. WARE, T. COX, T. ASTLEY, S. AUSTEN,
and J. BUCKLAND. 1745.

ADVERTISMENT.

JOHN OGILBY and William Morgan being thereunto appointed, and their Method approved by King Charles II and the Lords of the Council, and having in prosecution thereof, with many Years Travel, and the Expence of 7000*l.* published the first Volume of Britannia, containing an Hundred whole Sheet Maps of the Roads, &c. did in the Year 1676, publish an Epitome of the same, whereof you have here the Tenth Impression; to which is added some Roads, and in the Tables more than Five Hundred Market Towns, with their Distances from London, &c.

We have also added several Towns, Ports, Harbours, Creeks and Bays, in the Map which is fitted and annexed to the Book, and both together are a complete Direction for travelling all over England and Wales.

For it being next to impossible in a small Volume to lay down all Roads that every Man may have Occasion to travel, because from one and the same Place a Thousand Men may have a Thousand several Ways to go; therefore we have added the Map; that if you do not find in the Book the Road you would go, by finding in the Map the Place where you are, and whither you would go, you may easily see what Road will bring you thither.

For Example; would you go from Northampton to York for which you have not the direct Road in the Book, but by the Map you find your Way is from Northampton to Wellingborough, and so to Sibson, and then you are in the Road to York.

EXPLANATION.

IN each Road you have, first, named the Place whence, and to which the Road goeth, as Number 1. Page 13. from London to Aberystwith, and in the Cross-Roads, Cambridge to Coventry, &c. then follow the Names and particular Distance of each remarkable Place you pass.

The Numbers under C. shew you the Vulgar Computation; the Numbers under M. F. give you the Measured Distance by Miles and Furlongs.

And by casting up the Numbers, you have the Distance of any one Town from another; as Page 13. Number 1. from London to Uxbridge, you will find it by Computation 15 Miles, and by Measure 18 Miles 4 Furlongs, of which 8 make a Mile: and so of the rest.

But

EXPLANATION.

But we have given you the Totals of the Computation, and Measure of each Road, with the Cities and Market-Towns thereon, in the following Tables.

Where the Computation is omitted, that Town is not a Mile from the next, or admits of some odd Parts of a Mile; and in such Cases we have given the Computed Distance from the Town before, to the Town following the Omission.

As in the Road abovementioned to Aberistwith, from Kensington Gravel-Pits to Shepherds-Bush, it is by Measure 1 Mile 7 Furlongs; but the Computation is omitted till you come to Acton, which is accounted 3 Miles from Kensington Gravel-Pits.

We have divided the Roads under Two Heads, Roads from London, and Cross-Roads.

In the Roads from London there are divers that go part of the Way, and then turn out of the

EXPLANATION.

great Roads ; and to avoid repeating the Towns and their Distances, till you come to the Place where you leave the great Road, you are referred to the Road out of which each Branch issues, by the proper Number under which it is ranged. All the great Roads being included in 13 Divisions, with their Numbers placed at the Head of each progressively from Number 1. to Number 13. beginning at Page 13. and ending Page 24.

As in the Road from London to Buckingham p. 15. you are directed to Number 1. for the way as far as Uxbridge, and in the Road from London to Montgomery, Page 20, you are also referred Number 1, for the Way as far as Worcester, where the Road to Aberystwith, and the Road to Montgomery part ; and so of the rest.

We begin our Measures of the Roads at the Standard in Cornhill, London, and continue them through every Town, which makes the Measure so much exceed the Computation. The

EXPLANATION.

The Cross-Roads are such as lead from one City or great Town to another, and are placed alphabetically; where the Town that begins the Road takes place.

For Distinction, Cities are in CAPITALS,
Market-Towns in Italick.

A 4

ATABLE

A T A B L E or I N D E X of all the Cities
and Market-Towns, shewing their Distance
from LONDON, and in what Page of this
Book their respective Roads are laid down.

The Numbers under C. is the Computed Distance; under M. F. the Measure by Miles and Furlongs: for Example: Against Berwick, under C. M. F. you have 262, 339 2; that is to say, from London to Berwick is by Computation 262 Miles, by Measure it is 339 Miles, and 2 Furlongs. The Figure before the Name directs you to Page 13, where you have the Road to Berwick, and the Distance of each Town; and so of the rest.

Account of the P E N N Y - P O S T .

WH E R E A S by an Order from the Post-Master General, bearing Date the Eleventh of March, 1684-5, all Carriers, Stage-Coaches, Higglers, and Drivers of Pack-Horses, are forbidden to carry or re-carry any Letter, or Packet of Letters (except what concerns their Pack) upon the Penalties therein expressed: Therefore for the better Accommodation of all Persons in their Correspondency, there are Foot-Postes settled for the Collecting and Delivering of all Letters, as well for the General Post-Office, as others to those Towns round London, branched out from the Six Offices as followeth, *vix.*

General Penny-Post Office, is kept in St Christopher's Church-Yard in Thread-needle-Street, near Stocks-Market; which Collects, Delivers, and Conveys Letters to and from the Places following and adjacent.

King David's Fort	Stepney Causway.
Lime-House and Hole	

I. Note, That for every Letter or Parcel, from any of the above-mentioned Places to London, you are to pay one Penny each at the Receiving House; and nothing at London: But from London to the abovesaid Places, the Messengers are allowed to take for each Letter or Parcel, not exceeding a Pound, one Penny, and no more.

II. And considering divers of these Places are remote It is desired you put in your Letters and Parcels before Six of the Clock over-Night at the Receiving Houses

Letters, from whence they will be Collected, and brought into their proper Offices; because divers of the Country Messengers go on their Walks by Six of the Clock next Morning, and thereby will gain a Day's time in the Delivery: But for those Places that are nearer, Letters are Collected and Delivered two or three times a Day.

III. And it is further Notified, that all General Post-Letters both Foreign and Domestic, are conveyed from the abovesaid Offices directed to the Towns abovementioned, every Day at twelve a Clock: And Answers thereunto being put into the Receiving Houses in the Country Towns, will next Night be safely put into the General Post Office.
